

Acrylic Layers Workshop Description:

I truly enjoy working with physical layers, the dimensionality, seeing through physical layers, hiding things, discovering things, the possibilities are endless. Many folks have asked me how I achieve these effects in my “Equine Layers” and “Fleeting Glimpses” series so I decided to share my discoveries in a workshop. In this workshop I will:

- Review basic ideas/techniques of working in physical layers of Gel Medium and Acrylic Paint.
- Demonstrate and assist you with:
 - o Uses and effects of different Gel Mediums
 - o Working with layers of gel and paint on various supports (300lb watercolor paper, smooth and rough gessoed panels, plexiglas, wood, canvas, and 3D object)
 - o “Embedding” other media and materials
 - o “Sanding back” and “Erasing” techniques
- Discuss making design decisions unique to painting physical layers (not always intuitive)
- Send you home with multiple small acrylic layer paintings, informed and energized with you creative juices flowing!

Acrylic Layers Workshop Fees:

\$180 - includes two days of instruction and basic supplies for multiple small acrylic layer paintings (6 different base supports & gel; Instructor will have basic acrylic colors and applicators, supply list will be provided for supplemental materials)

\$60 per each additional 4 hour session of instruction
